

3.- NATIVE PUPIL

Hello! I am Isaac. I am fifteen years old, and I am in the fourth year of ESO.

Here in Spain, classes at secondary school take place from Monday to Friday, starting at 8.30 and finishing at 14.20. There is a five-minute-break between classes when we can use the toilet or change classroom.

In our school we have some rights and some duties. We have a right to be educated, and we also have a right to get economic help for both grants and books.

We have some duties, too: we have to be on time for class, respect timetables and obey rules. We also have to respect people who are with us at school, both teachers and classmates.

It is very important to attend school, but, if for whatever reason we cannot attend, we need to bring a justification slip that we get from the tutor.

Look, I don't particularly like studying, but I would like to become a good computer scientist, and to reach university I need to study a lot.
